

MISSION

To supply globally recognized and high-performing equipment backed by a highly qualified, professional engineer and product support. To deliver the best value to our customers, principals, and people while adhering to the highest standards of business conduct. Our workforce is our competitive edge; we aim to recruit and retain the most qualified people and develop them through ongoing professional training programs while instilling honesty and integrity as the pillars of desired work performance. We believe in rewarding success and initiatives; we strongly encourage teamwork, practice open communication and commit to offering a safe and healthy working environment for all. To be as responsive as possible to the needs of our clients, a values-driven workforce that is motivated to succeed.

VISION

To provide high-quality engineering works & solutions that combine performance with value pricing while consistently striving to meet and exceed customer expectations regarding backup support in engineering, services, and spare parts. We shall become the leading company providing reliable technical solutions, equipment, and services for electric power plants with a high-range output. Besides, we shall offer solutions and equipment for power plants that generate electricity.

CORE VALUES

Our shared values define a culture where people can be their best. They define an environment where we are motivated to respond quickly to client needs, discover new ways to solve problems, and make responsible decisions on behalf of the company.

MESSAGE FROM CEO:

We are delighted to introduce you to Everyonic Technology (Pvt.) Ltd. We started this company to create change and challenge decade-old practices. We are committed to providing our customers with industry-specialized and tailored solutions as required. We ensure that it is competent to distinguish itself from other solution providers in the market by providing turnkey solutions and investing in our Prominent engineers to enhance their capabilities to develop innovative solutions.

What make us different:

-  Quality: Achieve total customer satisfaction
-  Safety: Strive for zero harm
-  Teamwork: Build teams in line with company objectives
-  Innovation: Identify and adopt new skills and systems

WE ARE COMMITTED:

We are committed to provide state of the art solution to our customer that deliver immediate, long-term & bottom-line result.

COMPANY'S SOCIAL CONTRIBUTIONS AND CULTURAL SUPPORT

The company and its employees are involved in various social contribution activities. Our fundamental contribution to society is through business, but we prioritize active involvement in communities and society. As we state in our Activity Guidelines, we are committed to 'Contribute to society as a good corporate citizen.' With companies now being measured not only by their monetary worth but also by their efforts to contribute positively to society and the preservation of the environment, the company intends further to promote cooperation with NPOs and other social contribution activities and also enhance their structure for the promotion and support of volunteer activities by employees. These activities tie into goals outlined in our Management Principles to 'respect for people.' Our activities for each year are deliberated by the cross-divisional committee for promoting social contributions.

SOCIAL CONTRIBUTION VALUES (SC)

We drew up the SC Values to ensure that all executives and employees share the values in the Corporate Mission Statement and express these principles in nine concrete items.

INTEGRITY AND SOUND MANAGEMENT:

To comply with laws and regulations while maintaining the highest ethical Standards.

INTEGRATED CORPORATE STRENGTH:

Always act with a company-wide perspective to create no boundaries within the organization.

AN INTRODUCTION TO PRODUCTS AND SERVICES OFFERED BY OUR COMPANY IN THE FIELD OF POWER GENERATION AND ALTERNATE ENERGY SOLUTION.

Through a team of dedicated and professional engineers, we are committed to providing cost-effective, high-value, and customer-oriented services. Our innovative Portfolio is built around our unique offerings in the following core engineering domain:

- Electric related panels, distribution system panel, Auto Panel System, and Earth jobs
- Power cable HT/LT Power Service Provider
- Sales, Services, Repairs
- Installation and commissioning of Diesel generators gas generators.
- Annual maintenance of client's generator
- Fabrication of sound proof canopies and Fuel Tank
- Generator on rental basis.
- Transportation Loading & Unloading

GENERATORS

Everyonic Technology (Pvt.) Ltd. supplies installation testing and commissioning of Diesel/Gas Generators as per customer requirements. We deal in major brands; we provide the following services to our customers:

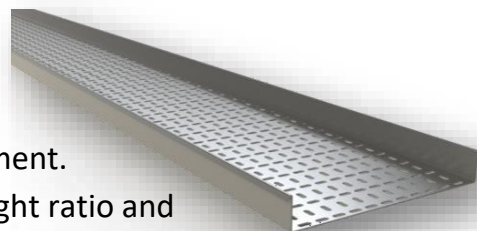

Services provider for Maintenance and servicing of Diesel/Gas Generators,
Testing and Commissioning.

-  Supply and Installation of Auto mains Failure and Automatic Transfer Switches for Generators
-  Supply and installation of Battery Chargers.
-  Supply of Power, Control and Earth cable
-  Supply of Cable Tray

EVERYONIC
TECHNOLOGY

CABLE TRAY

-  These cable trays can be used in almost any environment.
-  They have a reputation of having a good strength-to-weight ratio and commendable resistance to corrosion.
-  These cable trays are easy to install and are also advantageous because of their light weight.
-  It might surprise you that 80 percent of the cable trays used in any industry is ladder type cable trays. Moisture doesn't accumulate in this cable tray type.
-  If you are using sensitive circuits, then solid bottom cable trays are the best pick.
-  These cable trays contain a solid bottom part with a solid cover. For superior EMI or RFI protection, these cable trays must be used.
-  Wire mesh cable tray supplies a point-to-point pathway for cables.
-  The hole pattern design makes it possible for the cables to pass through and go up and down

LV/ MV HV /EHV SWITCHGEARS TESTING

-  Contact resistance up to 200 A
-  Circuit Breaker Analysis (Open & Closing timing test)
-  Vacuum Bottle Test (VCB)
-  AC/DC high voltage withstand Test
-  Primary Injection test
-  Insulation Resistance Test (IR)
-  Thermography Battery bank Testing
-  Opening / Closing coil Test

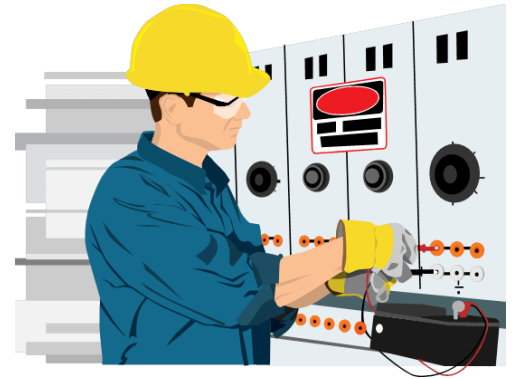

AN INTRODUCTION TO PRODUCTS AND SERVICES

Everyonic Technology (Pvt.) Ltd. operates with highly qualified and experienced field staff available round the clock for trouble-free and smooth operation. We are responsible for rectifying the issues, Oil & Filter Changes, Engine tune-up/ Adjustment, and Auto Transfer Switch/ AMF Calibration. We are committed to offering simple, meaningful solutions to our customers. We work hard to achieve the highest level of quality to help our customers. We are fully capable of handling all emergencies one may expect on the sites. Our Commitment to our customer encircles: Providing a total solution for power generation quotation, installation, and Testing. Quick response, Diesel engine-powered generator sets remain the number one choice for standby and emergency power systems nationwide. Having the capability to start and assume load in less than 10 seconds and rated load in a single step. Cummins diesel generator sets are the epitome of rugged dependability and reliable mechanical and electrical performance. Diesel generators are also well suited to utility peaking plants, distributed Generation (DG) facilities, and power management at large commercial or industrial sites in operations nationwide.

MECHANICAL WORKS

- | | |
|--|--|
|  We can also work with other machinery like refrigerators, air conditioners, Installation of Gen-set |  P & I (piping and instrumentation) |
|  Repairing and overhauling all type valves |  Mechanical infrastructure |
|  Gen-Set overhauling |  All type of Pumps · |
|  Preventive maintenance |  All type Heat Exchanger |
|  Corrective maintenance |  HVAC heating and ventilation |
|  Elevators, Lifts |  All rotary and stationary Mechanical equipment |
|  Design |  Erection and commissioning of piping network |
|  Power plant building machines |  Pipe insulation workers |
| |  Mechanical heavy and light structure |
| |  Vessels |
| |  All types of troubleshooting mechanical works. |

|---|---|
|  II Electric Power Generation II Solar Panels |  II Installation Testing & Commissioning |
|  II Transmission |  II Lighting & Power |
|  II Distribution |  II External Lights |
|  II Transformers |  II Door Entry System |
|  II Motors |  II Fire Alarm System |
|  II Generators |  II Mechanical Services Integration |
|  II ATS Panel (Automatic Transfer Switch) |  II Electrical Heating |
|  II AMF Panel (Automatic Mains Failure) |  II Security & CCTV |
|  II UPS (uninterruptable power supply) and lighting |  II HV & LV Switchgear |
|  II Wiring and lighting installations in buildings |  II Pre-Planned Maintenance |
|  II Electrical Services Design |  II Motor winding |
|  II Power Cable HT |  II Auto wiring AC and DC |
|  II All Types of Troubleshooting Electrical works |  II Auto Tricky Battery Charger |
|  II Load distribution panel & Industrial Socket Panel |  II Power Factor Panel |
|  II Industrial & Commercial Wiring |  II MCCB Electrical Panel |
|  II Power Cable HT |  II Synchronizing Panel |

EARTHING WORKS

We provide all types of Earthing as per required standard and provides complete warranty period. Following are our standards:

-  Grounding works to provide earth to less than 1 Ohms
-  Installation of earth PIT
-  Supply and installation of earth cable as per standard
-  Supply and Installation of copper rope
-  Supply and installation of copper bus bars as per dimension
-  Supply and installation of lighting spike
-  Supply and installation of Earthing Material We also undertake Earthing works for Offices, Industries and also in GSM services.

HVAC

Everyonic Technology (Pvt.) Ltd. have engineers and technician who have professional exposure in HVAC. We provide complete solutions in the supply, installation, and commissioning of Split Type Air Conditioning.

 **Maintenance:** The maintenance of all the various types of air conditioning is essential to increase the lifespan and efficiency of the unit. Even refrigeration needs constant servicing to ensure optimum performance and efficiency.

 **Repair and Service:** Fault-finding and repair are imperative for return on investment for our clients. In the workplace, Spares and backup services for cost-effectiveness and productivity.

 **Comfort Cooling-** Air conditioning for both the office and comfort of your home – Cooling and heating

 **Refrigeration-** Industry specific for restaurants, hotels and canteens, including ice machines

New Installations- Air-conditioning units including Inverter R410A gas units – power saving

 We also deal in air conditioning system which makes use of twin-rotary DC compressors and fuses all their advantages with various modern technologies to give top class energy saving. In which SMMS-e technology is used boasts higher EER (Energy-efficiency ratio) and more flexible operating ambience temperatures.

SOLAR DIVISION

Everyonic Technology (Pvt.) Ltd., deals in Solar Panels. The company maintains integrity, efficiency, development, and innovation as its operation for the exploitation of new energy efficient solutions, affording the customers excellent products and service, making high scientific technology as well as continual innovation philosophy to be the leading theory of market development and developing with new energy efficient causes side by side.

WHAT WE DO

-  **Provide** unique solutions and techniques to ensure the successful delivery of renewable and sustainable energy projects promptly
-  **Deliver** a value for our clients with creative, experienced and highly skilled Engineering team in the design, installation operational and maintenance of high-quality sustainable energy solution
-  **Produced** solar photovoltaic plant in various application such as residential, Commercial, industrial and agricultural
-  **Everyonic** offers tailored solution according to the client best interest and needs.

FIRE FIGHTING SYSTEM:

Everyonic Technology (Pvt.) Ltd. has special team in which we have well experienced and expert engineers and technician who have provide complete solution in Fire Fighting System as per safety standard. Following are our standards:

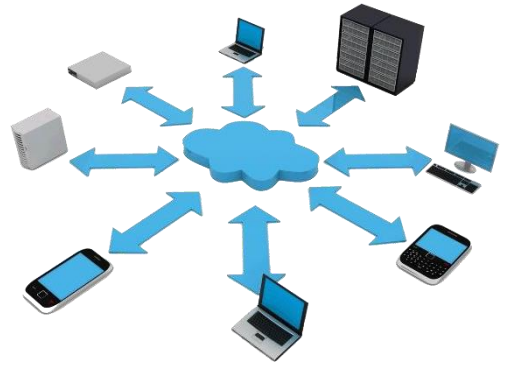

-  Supply and Installation of Fire Alarm Control Panels of required brand
-  Supply and Installation of Smoke and Heat detectors
-  Supply and Installation of Bell/Sounders
-  Supply and Installation of Manual Cal Point
-  Supply and Installation Circuit wiring for FACP power
-  Supply and Installation Zonal wiring (Smoke Detector, Bell, Manual Call Point)
-  Testing Commissioning of Fire Alarm System

CCTV CLOSED CIRCUIT TELEVISION NETWORK DESIGNING

experience in CCTV field and has practically worked in all major security system. we are an ideal position to provide consultancy service to any organization, Medium or small. We access the requirement of the organization and help them to select best possible and cost-effective system available in Everyonic Technology (Pvt.) Ltd. has Engineers and Technician who has the market.

EQUIPMENT SUPPLY

Everyonic Technology (Pvt.) Ltd. supplies all types of CCTV equipment, which are all types of cameras, lenses, housing, Panning Motors, Panel Motors, Cord, Multiplexer, switchers, Timeless recorders, Digital Video Recorders (DVR), CCTV Monitors, All types of imported and local made cables including Coaxial Cables. Power cables. We deal in all major brands available in Pakistan. We extend guarantees and warranties received from manufacturers to our clients.

DATA COMMUNICATION

NETWORK DESIGNIN

Everyonic Technology (Pvt.) Ltd. has Network engineers and expert network designers who put their best efforts and design a fully secure network system. We use the best software and quality products for designing and implementing a network. We deal in all networks, typically LAN, WAN, and VLAN wireless LANs. We also have specialized personnel for Installing and creating different servers, such as MS Exchange PHCP. DNS, SMTP. Apart from this, we can configure all kinds of LAN and WAN protocols and guarantee all these services at a much nominal cost than the market.

EQUIPMENT SUPPLY

Everyonic Technology (Pvt.) Ltd. supplies all types of Data equipment required for designing a network. We have various equipment with a wide range of costs and quality as required; we have servers, Switches, Hubs, Bridges and Routers, Wiring equipment, and Systems (for Networking and Servers).

SERVICES

Everyonic Technology (Pvt.) Ltd. provides a complete solution for Networking. Installation of server, clients, switches, wireless LAN, and all the other equipment per our customer requirements. We have a team of highly experienced technicians who carry out the wiring to the entire satisfaction of our customers and conform to international standards prevailing in the market. Our wiring is also guaranteed against any faults for one year. We also provide long-term maintenance contracts of wiring when required.
